

AC-ENTRY

Diagram illustrating the AC-ENTRY protection circuit. It shows three parallel branches, each protected by a fuse (F1, F2, F3) and connected to a common ground (STUD-M8). The inputs are labeled N_ACDC_1, N_ACDC_2, and N_ACDC_3. The outputs are labeled LF1, LF2, and LF3. The fuses are rated FUSE-gG-690V.

SURGE

Diagram illustrating the SURGE protection circuit. It shows three parallel branches, each protected by a surge protector (GDT1, GDT2, GDT3) and connected to a common ground (STUD-M8). The inputs are labeled N_ACDC_4, N_ACDC_5, and N_ACDC_6. The outputs are labeled LF1, LF2, and LF3. The surge protectors are rated GDT-3k5-20kA.
