The diagram illustrates the UANDCARD module, a central component with multiple pins. It is connected to the USUPCARD module and the TPS3430 voltage detector.

UANDCARD Module Connections:

- Top Connections:**
 - Pin 1: EN_A
 - Pin 2: DGND
 - Pin 3: A3
 - Pin 4: EN_B
 - Pin 5: DGND
 - Pin 6: WDO_CARD
 - Pin 7: DGND
 - Pin 8: DGND
- Right Connections:**
 - Pin 9: A1
 - Pin 10: A2
 - Pin 11: A3
 - Pin 12: B1
 - Pin 13: B2
 - Pin 14: B3
 - Pin 15: C1
 - Pin 16: C2
 - Pin 17: C3
- Bottom Connections:**
 - Pin 18: 74HC11
 - Pin 19: DGND
 - Pin 20: DGND

USUPCARD Module Connections:

- Top Connections:**
 - Pin 1: CRST
 - Pin 2: CWD
 - Pin 3: SET0
 - Pin 4: SET1
 - Pin 5: WDI
 - Pin 6: WDO#
- Right Connections:**
 - Pin 7: CRST
 - Pin 8: CWD
 - Pin 9: SET0
 - Pin 10: SET1
 - Pin 11: WDI
 - Pin 12: WDO#

TPS3430 Voltage Detector Connections:

- Top Connections:**
 - Pin 1: CRST
 - Pin 2: CWD
 - Pin 3: SET0
 - Pin 4: SET1
 - Pin 5: WDI
 - Pin 6: WDO#
- Right Connections:**
 - Pin 7: CRST
 - Pin 8: CWD
 - Pin 9: SET0
 - Pin 10: SET1
 - Pin 11: WDI
 - Pin 12: WDO#

The diagram illustrates the wiring of the JSWDCARD module to the Raspberry Pi 4. The module's pins are connected as follows:

- VDD** (top pin) connects to the top pin of the module.
- GND** (bottom pin) connects to the bottom pin of the module.
- SWCLK_CARD** connects to the **CLK** pin (pin 3) of the module.
- SWDIO_CARD** connects to the **DIO** pin (pin 2) of the module.
- NRST_CARD** connects to the **RST** pin (pin 4) of the module.
- A **100nF** capacitor is connected between the **CCARDRST** pin and **GND**.
- A **10k** resistor is connected between the **BOOT0_CARD** pin and **GND**.
- The **HDR-1x5-2.54** header has a **D0** pin connected to **GND**.

The diagram shows two identical circuit paths. The top path is labeled RROLE0 and the bottom path is labeled RROLE1. Each path consists of a green line on the left labeled V3P3, a resistor symbol in the middle labeled 10k, and a green line on the right labeled ROLE. Red dots indicate the connection points between the lines and the resistors.
