

[illegible]

NET NAMING

internal junctions are named for what they join

Quercus_19P10: made at that IC join e.g. QVODA_19DP

n 2 more

MAGNETICS CONSTRUCTION

Identify per description and form, gap, fill, acceptance (see Item)

23 T1-T2: 2x PG0500 PC05 stack, 7.7 (E3), HS 13500001 1 TW, Lm 3.0x1' at 1" gap-ground

22 L1T-L2T: gapped 2x PG0500, 9x-1, Lm = 0.4x1, gap ground per list

Total Lr = 10m + measured after leakage (since COMPENSATE leakage applied); Cr at 500K sections
