

SHEET INDEX

ACWAKING (50 pages) - 1 of 1
ACWAKING - 5 sections
AIR POWER - 1 section
CONTROL - 1 section
IMPOTENCE - 1 sections
GLAREN - 3 sections
WIND-PTC - 3 sections
INCL: 30 sections - 786 components

NET NAMING

Internet protocols are named for what they join

Unicast: «file mode of find C:\pin» e.g. `1915USA.VNDP`

Broadcast: «if multipoint of a network pair» e.g. `48B3A7A_H`

Broadcast: «cross link between RouterNetworks» e.g. `R1010_01`

all others are explicit design names

MAGNETICS CONSTRUCTION

Identify per [discontinuity.kit.dtu.dk](#) (vires, gdp, ltu, acceptance times time filter)

DT LASIO: In [MOTIKAT](#) Kioski, No3 (3-1 1 bit time), 3x3x1mm (3mm) = L3 180u, 3x4u 0824 3u (BRASS) value gamma (gdp/3u ratio)

DL L3011: 3u 7u 6u, No7, 3x2 200u (2u) = 200u 0824 3u (3u 2u)

Total L = 30u + measured after leakage (3u COMPENSATE leakage spread), Or as TANK sections
